# The Bespoke Shutter Collection

# Why homeowners choose Bespoke shutters

Curtain Studio proudly offers a standout range of premium polymer and timber shutters, where innovation, quality and sustainability meet to create a timeless investment for your home.

Our made to measure shutters are 100% custom designed and precision crafted to perfectly frame your windows, doors or alcoves, whatever the shape or size.

## CORD AND CHAIN FREE

Designed for total peace of mind around kids and pets.

## INTERIOR PROTECTION

UV barriers help guard flooring, curtains and furnishings from fading.

## BUILT TO LAST

Strong, durable and low maintenance.

## PRECISION CONTROL

Effortlessly manage light, airflow and privacy.

## INSULATION

Insulation and acoustic comfort, year-round.

## LOW MAINTENANCE

Easy to clean and use on a daily basis.

## KERB APPEAL

Beautiful looks, inside and out.

## HEALTHIER LIVING

Hypoallergenic due to the hard surface.

## POLYMER SHUTTERS

# Water resistant, durable & effortlessly elegant

Crafted from an advanced polymer formulation and reinforced with a patented aluminum core, Polymer shutters are engineered to deliver exceptional strength and long lasting performance.

A specialised protective coating provides outstanding resistance to water, heat, moisture, and UV exposure.

Designed to thrive in high moisture environments, they're the perfect solution for kitchens, bathrooms, and laundries, yet their refined, elegant appearance makes them perfect in any room.

### ENTRY LEVEL

## UltraSmart

89mm blade  
Hinged & fixed  
Dual close

### MOST VERSATILE

## PolySmart

89mm blade  
Hinged, fixed, sliding & bifold  
Supatilt tilting control

### MOST CONFIGURABLE

## EcoSmart

63-114mm blades  
Many frame options

## TIMBER SHUTTERS

# Natural warmth, handcrafted to order

Paulownia is a beautifully sustainable hardwood sourced from responsibly managed plantations. Naturally lightweight yet highly resilient against everyday knocks and bumps, it offers a distinct, organic grain with a more rustic charm than traditional basswood.

Enhance your home with Paulownia's excellent thermal insulation and acoustic benefits. The lower weight makes operation easy, particularly for large panels.

## SUSTAINABLE HARDWOOD

### Paulownia

63 & 89mm blades

Hinged, fixed,  
sliding & bifold

Paint colours  
plus custom colours

## TIMBER SHUTTERS

# Natural warmth, handcrafted to order

Crafted from premium hardwood with a fine, straight grain, Basswood delivers a beautiful finish whether painted or stained. Basswood shutters are our most popular choice, combining structural strength with a timeless aesthetic that can be seamlessly customised to suit almost any colour, design or shape.

Basswood is more rigid than lightweight woods, meaning panels have less flex and maintain their shape. They can also be crafted into shaped or raked shutters for architecturally distinctive windows.

STAIN COLOURS AVAILABLE

## DIVERSE OPTIONS

### Basswood Paint & Stain

47-114mm blades  
Hinged, fixed, sliding & bifold  
Paint and stain options

Panels up to 1300mm wide

## PREMIUM STYLE

### Basswood Heritage Bevel

47-114mm blades  
Hinged, fixed, sliding & bifold  
Heritage bevel options

## CUSTOMISE YOUR SHUTTERS

# Make it yours

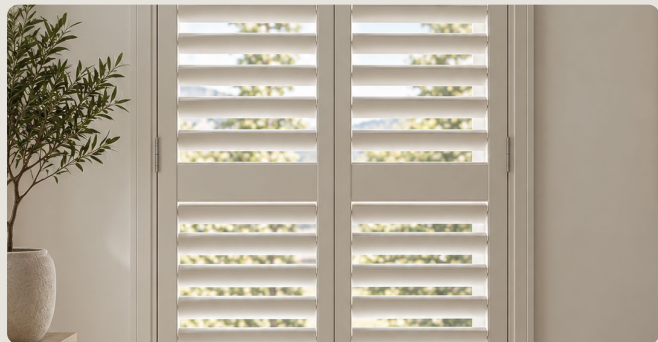

Every shutter is made to suit your window, your space and the way you live. Choose the details that make your shutters uniquely yours.

### BLADE WIDTH

Wider blades create a more open outlook and let in more light, while narrower blades offer a more classic, tailored look.

### MIDRAIL

A midrail divides the shutter into independently controlled sections, giving you greater flexibility over light and privacy. It also adds strength and can align with or conceal a window transom.

### SHAPES

From squares, arches and circles to raked and semicircular windows, our timber shutters can be custom shaped to suit any opening.

### SUPATILT CONTROL

An integrated blade tilting mechanism is hidden within the frame, giving you effortless control without visible controls or hardware.

## FEATURES SUMMARY

# At a glance

| Shutter Type & Features | Material | Configuration |       |         |        | Blade Sizes           | Features          |                     |          |            |       | Colours |        |        |
